

MRL 2025: Georgian

Sophie Gvasalia, Tea Abashidze, Ana Chkhaidze

For constructing this dataset, we primarily relied on our own experiential knowledge, as well as that of our friends and family. We interviewed them, asking for unconventional tricks or techniques they use in everyday activities. We also drew inspiration from an old Georgian book, *Imagination and Skillful Hands* (ფანტაზია და მარჯვე ხელები) by Neli Okropiridze, which offers tips and tricks for a range of DIY projects and was once widely used in the Georgian community. Approximately half of the prompts require some knowledge of Georgian culture or customs; the rest should be solvable using common sense.
